

AAR.171F. (1) A trainer must record treatment and medication administered to each horse in his or her care by midnight on the day on which the administration was given, and each record must include the following information:

- (a) the name of the horse;
- (b) the date and time of administration of the treatment or medication;
- (c) the name of the treatment or medication administered (brand name or active constituent);
- (d) the route of administration including by injection, stomach tube, paste, topical application or inhalation);
- (e) the amount of medication given (if applicable);
- (f) the duration of a treatment (if applicable);
- (g) the name and signature of person or persons administering and/or authorizing the administration of the treatment or medication.

(2) For the purposes of this rule:

(a) "treatment" includes:

- (i) shock wave therapy;
- (ii) acupuncture (including laser treatment);
- (iii) chiropractic treatment;
- (iv) the use of any electrical stimulation device (including transcutaneous electrical nerve stimulation (TENS);
- (v) magnetic field therapy;
- (vi) ultrasound;
- (vii) any form of oxygen therapy, including hyperbaric oxygen therapy; and

(b) "medication" includes:

- (i) all Controlled Drugs (Schedule 8) administered by a veterinarian;
- (ii) all Prescription Animal Remedies (Schedule 4), including those listed in AR.178C(2);
- (iii) all Prescription Only Medicines (Schedule 4), prescribed and/or dispensed by a veterinarian for off-label use;
- (iv) all injectable veterinary medicines (intravenous, intramuscular, subcutaneous, intra-articular) not already included above;
- (v) all Pharmacist Only (Schedule 3) and Pharmacy Only (Schedule 2) medicines;
- (vi) all veterinary and other medicines containing other scheduled and unscheduled prohibited substances;
- (vii) all alkalising agents;
- (viii) all herbal preparations.

(3) All records required to be kept in accordance with this AR.178F must be retained by the trainer for not less than two years.

(4) When requested, a trainer must make available to the Stewards the record of any administration of a treatment and/or medication required by sub-rule (1).

(5) A trainer who fails to comply with any provision of AAR.171F commits a breach of this Rule and may be penalised.

*(rule deleted and replaced 1.1.15)*

#### **AAR.178G**

In the case of the presence of testosterone (including both free testosterone and testosterone liberated from its conjugates) above a mass concentration of 20 micrograms per litre being detected in a urine sample taken from a gelding, or above mass concentration of 55 micrograms per litre being detected in a urine sample taken from a filly or mare, prior to or following its running in any race, it is open to the Stewards to find that the provision of AAR171 or AAR.171H do not apply if on the basis of their scientific and analytical evidence available to them they are satisfied that the detected level in the sample was of endogenous origin or as a result of endogenous activity.
